

DripDrop®

ORS

dripdrop.com #StickToYourMission

Capability Statement

Military grade dehydration relief.

Oral rehydration sticks in Berry, Lemon, Watermelon, and Orange.

Core competency

- DripDrop® ORS electrolyte powder sticks transform water into a medical grade, clinically relevant treatment for fluid and electrolyte replacement
- More convenient and cost effective than IV therapy
- Mitigates risk of heat injury and illness

Differentiators

- 3x electrolytes and 1/2 the sugar of sports drinks
- Meets World Health Organization standards for ORS (Oral Rehydration Solution)
- The first ORS that actually tastes great, resulting in better compliance and outcomes

Low osmolarity & high sodium are the hallmarks of medical grade hydration

- Low osmolarity means better absorption
- Clinically relevant levels of sodium and potassium for effective electrolyte replacement
- Activates the sodium glucose co-transport system, which The Lancet calls "the most important medical discovery of the 20th Century"

Past performance: Users & partners

- Joint Interagency: US Army, US Navy, US Air Force, US Marines, Department of State, US Border Protection, LA County Fire Department, Orange County Fire Authority, Bureau of Land Management
- Walgreens, AAFES, NEXCOM, and Marine Exchange
- Prime Vendors including Cardinal Health, Owens & Minor, AmerisourceBergen
- Leading medical institutions, including the Stanford Medical, USF Medical, Cleveland Clinic and Mayo Clinic
- NSF-Sport Certified

Performance & characteristics

- All ingredients GRAS (Generally Recognized As Safe)
- May be used for children, adults and seniors
- Sold over-the-counter
- All-natural flavors, no preservatives, non-GMO
- FDA, Good Manufacturing Practice (all facilities) and NCAA compliant Kosher
- NSF certified
