Modular SKVMs

Belkin's Modular SKVMs are designed and built for government and military agencies around the world to safeguard critical data and computer systems. While only slightly larger than a modern smartphone, Belkin's Modular series of secure KVMs and KMs meet all critical security constructs to ensure air-gap isolation and system security in the smallest form factor on the market. Universal video compatibility, innovative mounting options, and an included remote control allow administrators to declutter the operator's desk without jeopardizing control and access.
- Smallest form factor for 2- or 4-port secure KVM
- Universal video compatibility
- Included remote control supports KVM switching while decluttering the desk
- Optional mounting hardware supports VESA and under-the-desk mounting

- Certified for NIAP Protection Profile 4.0 to meet the highest security standards
- TAA compliant, assembled in the USA
- Dedicated US-based free technical support

Free up your desk

With a 94% smaller footprint than other KVMs, the Modular SKVM Series is designed to take up as little desk space as possible while adhering to NIAP PP PSD 4.0 requirements.

Optional mounting choices and the included remote control combine to help declutter the desk while enhancing operator ergonomics in even the most cramped work environments.

Modular KMs

Supporting two or four computers, the Belkin Secure Modular KM series is ideal for desktops that require multiple monitors for real-time monitoring and response. Each computer remains directly connected to its own monitor(s) while the KM switches USB keyboard and mouse control with a simple keyboard key press and cursor move to the active computer. Modular KM units are shipped with a complete set of connecting cables and a remote-control unit, should a user desire a button push to switch the keyboard and mouse to a different computer.

- Smallest form factor for 2- or 4-port KM
- Included remote control supports KM control switching while decluttering the desk
- Optional mounting hardware supports VESA mounting and under-the-desk mounting

- Certified for NIAP Protection Profile 4.0 to meet the highest security standards
- TAA compliant, assembled in the USA
- Dedicated, USA-based free technical support
